# AI Child Use — School Implementation Standard

Version v1.0 — Release date: 2026-01-08

## Institutional Adoption Record

Institution / School Name:

Authorising Role and Name:

Date of Adoption:

Pack Version: v1.0

Public Baseline Reference: v1.0

Local Notes (non-substantive only):

## Scope & Authority

This document establishes formal conditions of use for AI systems within a school environment. It operationalises the public baseline by defining how declared conditions are applied, supervised, and relied upon in practice. Updates to this standard are published on the reference page. Institutions are responsible for reviewing updates and determining whether re-adoption is required for continued reliance.

This PDF contains the complete School Implementation Standard as approved.
